

## SOCIALLY RESPONSIBLE ENTREPRENEURSHIP

Run by members of the local community, the vineyard is for Wageningen and its visitors. There are many ways of becoming involved in the vineyard and enjoying this beautiful spot in Wageningen.

## HELPING OUT

Our grapes are grown and tended by enthusiastic and dedicated volunteers. Everyone is welcome to join in. The work is not arduous and can be done at your own pace. It's satisfying and fun, and a great way to notch up work experience (the vineyard is an accredited agricultural training enterprise) or to do as part of a rehabilitation or recovery programme.

## HOW YOU CAN HELP

- volunteer to help out in the vineyard;
- buy our wine;
- adopt a grapevine;
- book a wine tasting;
- attend our events;
- hold your party or event in the vineyard;
- become a donor;
- recommend the vineyard to friends and family.

Get in touch by emailing [info@wageningswijngoed.nl](mailto:info@wageningswijngoed.nl).

To order wine: [www.wageningswijngoed.nl/webwinkel/](http://www.wageningswijngoed.nl/webwinkel/)

## HOW TO FIND US

Cars and bikes may be parked opposite Geertjesweg 55 in Wageningen (postcode 6704 PC). Walk up the forest path for about 250 metres. The vineyard's entrance is on your right, at the intersection with the Klompenpad walking trail (purple clog way markers).

# EXCEPTIONAL VINEYARD SITUATED ON WAGENINGEN'S 'MOUNTAIN'

**ORGANIC WINES  
PRODUCED WITH  
PASSION AND PLEASURE  
BY DEDICATED LOCALS**

## WELCOME TO WAGENINGEN'S VINEYARD

**Wageningen's vineyard is nestled on the northern flank of Wageningen's 'mountain' to the east of the town, in De Dorskamp estate.**

Established in 1998, the vineyard has become an asset to the landscape and a unique part of Wageningen's cultural heritage. Since spring 2015, it has been run by a foundation (Stichting Wageningen Wijngoed) that has as its aims the preservation of the vineyard and the production of delicious wine for the delectation of many.

### OUR GRAPES

There are over 7500 vines in our approximately 2.3-hectare vineyard. The most important varieties are Regent, Johanniter, Bianca, Muscaris and Merzling. The first 3000 vines were planted in 1998; in 2000, the vineyard was expanded.

### QUALITY WINE

The wine reflects the love and care we put into producing it. We gladly devote time and effort to cultivating and tending the individual vines and clusters of grapes. In May, we prune heavily. In summer, we prune out the leaves shading the clusters

(Skal). We use organic manure and green manure, not artificial fertiliser and we minimise disease and pest attacks by making sure the vines grow steadily during the growing season. We never use chemical pesticides or fungicides. All this keeps the soil healthy.

### WHERE TO BUY OUR WINES

The wine is on sale in the vineyard or can be bought on-line from our website and in various shops and restaurants in Wageningen, Bennekom, Ede and Renkum. Details are on our website.

of grapes and, if the clusters are very compact, thin out half the berries to expose them to more sun and give them room to grow optimally. We use organic fertiliser, so the grape berries will ripen steadily and uniformly. The end result is a harvest of small clusters of small grapes in which the taste and aroma are concentrated that give our wines their flavour and depth.

### CERTIFIED ORGANIC WINES

Our wines comply with EU legislation for organic farming and are certified by the Dutch organic control organisation
